The DIMMER VIEW

Hospital Costs Should Be Cut

The Grossmont District hospital is owned by the public — as every District property owner knows.

What every property owner does not know is why he is called on to finance its expansion while privately owned facilities expand out of income.

Grossmont District taxpayers will soon be asked to finance another Grossmont hospital expansion — this one for nine million dollars for a new wing.

The funds, secured by bonded indebtedness against every parcel of land in the District, will increase the hospital's single care bed capacity from 219 to 375 with ancillary services expanded in proportion.

The tax rate to service existing bonds is nine cents on the upcoming County tax bill.

Leverett Bristol, Grossmont hospital administrator, forecast this week a fourteen cent rate after the nine million dollar bond issue passes. This rate will be reduced as property value in the District increases.

The hospital's opening costs are paid for by patients — many of whom also paid for the hospital's construction through prior hospital taxes.

Operating costs, reflected by the daily room charge, are too high. In a general way, too-high costs are frequently associated with government-style operations where payroll is met by taxpayers rather than by free enterprise groups.

At Grossmont, records show, it takes three people to do the work performed by two at other hospitals. The latter figure is based on a nation-wide average which lumps together many hospitals operating at a lower work-load efficiency than Grossmont.

Famed architect Charles Luckman designed Grossmont as a model of efficiency. If he succeeded — and no hospital executive has yet charged that he did — the work load ration should be two at Grossmont for every three nationwide.

But as one observer put it — "It'll never happen. Grossmont is so tradition-bound that innovations are next to impossible."

Grossmont directors have been trying to decide how best to present the bond election so that it will be successful and at the same time choose a plan that will be feasible. The election itself will be costly. It will cost taxpayers $18,000.

Plans for the expansion range from self-care facilities where patient cost would be considerably lower than at present, to high-cost single patient intensive care units.

While these things are concerning the Grossmont directors and hospital staff, another facility, non-profit, free-enterprise Doctors hospital has drastically cut its rates. Doctors hospital, a self-financed, privately owned facility in the Midway-Frontier area, cut room rates two to fifteen dollars a day.

James F. Bray, Doctors hospital administrator, who holds a post similar to that held by Leverett Bristol at Grossmont, said that the reductions were made without an increase in other hospital costs.

After assuring himself that his facility was fully efficient, he attacked the meal cost problem. Doctors hospital this week starts serving airline-type meals on disposable plastic trays with disposable "silverware".

Patients at Doctors get four meals a day instead of three. Soon meals will be heated enroute to the patient. A reduction of 21 housekeeping employees will result with a 10 per cent reduction in labor cost. There will be no reduction in nursing service.

Bray noted additional savings in the innovation. He said four meals could be served for four days for the cost of one chinaware plate replacement.

Disposable linens, gowns and uniforms made of paper with the feel of cloth will soon be standard at Doctors, he said. One executive said the replacement cost a year would be about the same as with cloth but laundry labor and equipment costs would be eliminated.

More efficient business management has resulted in improved patient care and lower operating costs, he said. Constant review of hospital operations with the aid of relatively new hospital business services organizations has produced additional efficiencies.

These are the Commission for Administration Services in Hospitals (CASH) a non-profit organization of consulting management experts serving 150 California hospitals, and Hospital Administrative Services (HAS) which is a functionary of the American Hospital Association.

Doctors hospital operates a "stand-alone" computer system which shares time with no other firm. Thus all programs are designed expressly for it.

Even the occupancy factor is updated patient by patient.

Every part of the hospital's operation is programmed.

As a result, said Bray, the staff has the highest efficiency rating measured by CASH standards.

Staff morale is high under a condition of efficiency, he said. There is no feeling that the computer eliminates the human equasion. "We have doctors, nurses, patients and varied hospital employees who perform human duties as in any other hospital but none feel he is performing a useless task. The rapport between staff and patient is extremely high," he added.

While money-saving efficiency is carried out at Doctors, so are expansion programs. Last year, 120 long-term case beds were added bringing the bed total to 219.

Core samples are presently being taken on Doctors five-acre site at Midway for a three-year $20 million expansion. The first will be a seven-story medical suite building.

Grossmont will continue to grow as the district's population increases. There will be a need for an expansion — or a hospital built by other interests elsewhere in the District.

Previous directors at Grossmont promised that a branch facility would be built near the Palm, Campo, Broadway intersections to better serve the Casa de Oro, Lemon Grove, and Spring Valley areas of the District.

The proposal has since been rejected by the board because the freeway system puts all district patients within minutes of the hospital, it was said. No mention was made of doctors who do not wish to travel to additional hospitals to see their patients.

If Doctors hospital can reduce hospital costs, so should Grossmont.

Better still, as this column has recommended from time to time, let's sell Grossmont to a hospital operating corpor-

RETIRES — Lemon Grove's Judge Luther N. Hussey

Judge Hussey Retires; Bench To Mark Service At Kona Kai Luncheon

A luncheon honoring San Diego Municipal Court Judge Luther N. Hussey will be held at Kona Kai hotel October 10.

Judge Hussey, who is completing 17 years of judicial service, announced his retirement last week.

The luncheon is expected to attract 120 persons — the capacity of the dining room. Many participants will be judges, court clerks, deputy marshals, attorneys at law, and, of course, Lemon Grove residents.

Attendance is by reservation only due to limited capacity, said Municipal Court Judge George Crawford, chairman of the event. Reservations should be made at 239-7711, extension 708. Deadline is Tuesday. Price is $4.25.

Judge Hussey lives at 7205 San Miguel in Lemon Grove. He came to Lemon Grove 20 years ago soon after closing his law practice in Washington, D.C.

He constructed a law building at 8253 Broadway and opened his practice there.

Civic Leader

He soon became a civic leader, an active member of the L.G. Kiwanis club, and a pillar of the Lemon Grove Congregational church. He also aided in the institution of the Lemon Grove Masonic Lodge.

He was elected judge of the Homeland Judicial District Court where he served several years until it was absorbed by the San Diego Judicial District in 1957. He was then appointed a Municipal Court Judge.

He was active for many years in the state-wide Conference of California Judges and attended both the State and National College of Trial Judges as well as many national and regional conferences of judges and lawyers.

The Honorable Charles M. Snell, Presiding Judge of the Municipal Court, San Diego Judicial District, said "It is with extreme regret and a deep sense of loss that I announce the retirement of the Honorable Luther N. Hussey.

"He has been a leader in our Court and was responsible for the establishment of procedures and policies which resulted in the Court receiving the first prize 'Justitia' award from the American Bar Association Traffic Program in national competition.

"His loss to our bench will be keenly felt by colleagues and the public.

On Call

"However, we do plan to call upon him for his counsel in the future progress of the Court and in the administration of justice."

Judge Hussey, in a letter to John Petersen, clerk of the courts; Court reporters, Judicial secretaries; William Howell, County Marshal, and his deputies, and to friends of the San Diego County Bar Association, said:

"On the occasion of my retirement, I would like very much to meet and greet each of you face to face to express my appreciation and gratitude for your individual performance on our team for the administration of justice in the San Diego Judicial District.

"However, such massive individual encounters at this time are not possible, so I take this means of saying farewell, best wishes, good health, and thanks to each of you for your kindness, your generosity, your spirit of cooperation and the contribution of each in our endeavor to better serve the Public by constant improvement in the administration of justice.

"You have made my small

Citizens' Plan Committee Could Result from Meeting

SAN DIEGO (CNA) — An informational meeting that could lead to the formation of a Lemon Grove citizens' planning committee has been scheduled at the Lemon Grove Junior High School for 7:30 p.m. on Oct. 15.

County supervisors have authorized staff contact with community organizations to see if there is enough interest in a planning effort to make it worthwhile for staff participation in the citizens' effort.

The residents, if the committee is formed, are in for much hard work over the course of one or two years to achieve a planned community.

The county's community planning chief, Robert Kelsay, told County News Assn. that from the way his telephone has been ringing after stories appeared in the local press about the plans, there is a great deal of interest.

He said the persons to contact are Al Woods at the Bank of America at 294-2260 or the Rev. Earnest Fowler at 466-0503. Most of the information will be available at the Oct. 15 meeting, however.

Although Supervisor Harry Scheidle suggested that Spring Valley be included in the planning effort, the board action was that Lemon Grove and Lakeside be given the first priority for staff contact.

Lemon Grove was zoned many years ago and the patterns could be termed patchwork, or perhaps weird.

There many acres zoned R-2-A or R-2, both of which are duplex zones which allow one or two family dwellings on 6,000 square foot minimum lots. This was a popular zone during the zoning period, but development did not follow the duplex pattern, but instead went to the single family concept, whether in individual lots or in subdivisions.

Now the pressure is for mobile home parks in the R-2 zones or for upping the zone to R-3 for apartments.

In the absence of a community-supported plan, each application must be processed in relationship to its immediate surroundings with insufficient information in regard to its effect upon road patterns, schools, and, especially, precedent setting.

If an apartment zone is allowed in one portion, a portion where there is no opposition from the local residents, this makes it difficult for the county to halt further apartment rezones in nearby sections.

Lemon Grove is going to have apartments and mobile home parks, but the objective of a planning effort is that they go where they should, rather than leaving the "planning" up to the whimsy of individuals.

Membership Drive Set By LG CoC

The Lemon Grove Chamber of Commerce this week set Oct. 20-25 as Membership Week and appointed Wally Knutsen, a realtor, as chairman.

Knutsen said James Dorman, attorney, and Max Goodwin would serve on the committee with Chamber Board members scheduled to visit every non-Chamber member business firm during the week of the drive.

The Chamber will instigate a regular newsletter concerning doings of the business community under the editorship of El Loop, local stationer.

Frank Shughrue, Chamber president, instructed a commendation be presented to Municipal Court Judge Luther N. Hussey, of Lemon Grove, who is retiring.

The presentation will be made at a luncheon honoring Judge Hussey Oct. 10 at Kona Kai.

The board also commended the members of St. Philip's Episcopal church in its attempt to save St. Paul's, San Diego's oldest church. Plans are to move it to Lemon Grove, according to Dr. Sam Smith, member of St. Philip's and member of the Chamber board.

The group agreed to continue to hold breakfast meetings on the last Tuesday of each month.

S.V. Mobile Home Park Plans Dropped After County Snags

SAN DIEGO (CNA) — One mobile home park in Lemon Grove was rejected on Friday by the County Planning Commission and another withdrawn by the applicant.

The rejected permit, which can be appealed to the Board of Supervisors, was for 266 spaces on 37 acres located on the south side of Ildica st., about 1,000 feet east of its intersection with Sweetwater rd.

The withdrawn permit application of R. W. White was for a 264-space permit on the northeast side of the north end of Gowin st.

The parks were adjacent in the vicinity of the proposed extension of Ildica.

Speaking against the permit were Don Schnack and Cecil Grisette. They indicated that the access to the mobile home park of applicant Loren Townsend and Associates would be from Ildica, an inadequate street, with access problems already to Sweetwater rd.

They also said that if children were allowed in the parks, they would overload the schools, and not raise sufficient money from property or in lieu to pay their way.

(The in lieu tax money is shared by the school district and county, and County Assessor E. C. Williams has said it is about equal to what a property tax would be. The revenue is not shared by the other districts.)

Schnack gave the commission a petition signed by 130 persons in opposition to the mobile home park in Townsend.

Zoning Chief John Cassidy said extreme grading and terracing would be required in his recommendation for denial. Many of the streets would have served only one pad.

He also said the traffic generated by the pack would aggrevate a serious congestion problem already existing at the intersection of Ildica st. and Sweetwater rd.

Monarchs To Give Students PTA Voice

A complete revision of Monte Vista High School's PTA has been called for this year by the group's president, Craig Howry.

Howry wants to give the students a voice was taken this year, complete with seats on the Executive Board.

If successful, Monte Vista will be only the second school in the state with students on the Executive Board. Tentatively, ten new seats will be opened this year for students.

Eight seats will be filled by elected representatives from the Student Congress plus two representing the school officers.

Work on the revision has been started already with a complete revision of the by-laws being made.

Another step in giving the students a voice was taken when student membership to the general assembly was ratified this summer. The students will be given full membership and will pay dues as do the faculty members and parents.

However, State Law prohibits students from voting in the general assembly but Howry has petitioned the State PTA office to let the Monarch students vote as part of an experiment.

If successful, it will be the first school in Southern California to have such a PTA.

The name PTA will also be changed from Parents Teachers Association to Parents Teachers Students Association, PTSA.

Organizations such as this are common in the Midwest and East but are almost nonexistant on the West Coast," commented Howry.

But it's about time that the student is given the opportunity to make his opinions heard to both the faculty and parents. The PTSA gives the student an ideal opportunity for such a presentation," concluded Howry.

County Opens Willow Glenn Borrow Pit

SAN DIEGO (CNA) — The county granted itself a special use permit on Friday for a strange kind of borrow pit.

The sharp turn on Willow Glen Road at Singing Hills Golf Course south of El Cajon and east of Spring Valley is the subject of the borrow pit.

However, the county has no present plans for construction of the new road section, therefore could not bypass the commission for a construction job.

The five-year permit will allow the county road (engineering) department time to reduce a large hill to eventually re-align the road.

Although borrow of the decomposed granite will be used in the vicinity, the main purpose of the application is the straightening of the road.

Textbooks Available

La Mesa-Spring Valley School District will pass out unusable or obsolete textbooks Saturday.

The District has authorized that the books be given away at the old State Forestry Building, 4715 Date, La Mesa, between 8 a.m. and 4 p.m.

Colors, Graham Due At Stadium

More than 250 color details will participate in the 15th annual Massing of the Colors to be held at 3 p.m. Oct. 12 at San Diego Stadium as a salute to the San Diego 200th Anniversary.

The service of remembrance, honoring the dead of all wars, is sponsored by La Jolla Chapter, Military Order of World Wars.

Guest speaker will be world renowned evangelist Dr. Billy Graham. Dr. Graham, who has conducted crusades in virtually every state in the United States and 50 foreign countries, will stress the patriotic and religious responsibility of mankind in his presentation.

In past years the program has been held in Balboa Stadium, but this year the site was switched to accommodate the large crowd expected for Dr. Graham's appearance.

During an interview the night preceding the stadium bond issue vote in 1965, Dr. Graham indicated he hoped the people of San Diego would vote for the new public facility and that he would get an invitation to appear in it. The issue was passed by 76 per cent of the vote cast.

The program is being conducted in cooperation with the 200th Anniversary, civic, religious and military organizations and the San Diego Chargers football team, which revised its schedule to make the stadium available on Oct. 12.

A choir composed of some 3,000 persons representing various choral organizations throughout the county will participate in the ceremony.

Also featured in the program will be the Naval Training Center 50-state flag presentation and the Marine Corps Recruit Depot band.

IRS TAX ANSWERS?

F. S. Schmidt, DISTRICT DIRECTOR, INTERNAL REVENUE SERVICE

This column of questions and answers on federal tax matters is provided by the local office of the U. S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q — Should you bring a tax expert with you when you are called in for an audit?

A — Professional help is usually not needed during the examination of a return. However, you may bring someone to represent you if you wish.

The reason for examining a return is to determine whether it is accurate and complete. To do this, you should have the records to back up the items and amounts shown on your return.

Q — Are death benefits from a life insurance policy taxable?

A — Lump sum life insurance proceeds paid because of death are not considered taxable income unless the policy was transferred to you for a valuable consideration. However, if the benefits are paid in installments a portion may be taxable as interest.

This and other aspects of insurance payments are explained in IRS Publication 525, "Taxable Income and Nontaxable Income." Send a post card to your District Director for a free copy.

Q — Our daughter works after school. Can she claim an exemption for herself on this job if I'm also claiming her as my dependent?

A — Yes, she may claim her own withholding exemption and you can continue to claim her as long as she qualifies as your dependent. She is also entitled to claim herself when she files an income tax return next year.

Q — Can you deduct anything for employment agency fees?

A — Fees paid to an employment agency for securing a job are deductible when you itemize your deductions.

Q — I use my country club to entertain some of my customers. Am I allowed any deduction for my club fees and expenses?

A — our business lunches at the country club would be deductible just as a business lunch any place would be. Other entertainment expenses at the club may also qualify.

A portion of your annual club dues may be deducted if you use the country club more than 50 percent of the time for business purposes. Membership or initiation fees paid once for membership privileges are generally considered a capital expense and are not deductible.

To show you use the club more than half the time for business purposes, keep a record of the days you and your family use the club's facilities, and indicate whether for business or personal purposes.

If you use the club for both business and personal purposes on the same day, it counts as a day of business use.

Club dues are discussed in Publication 463, "Travel, Entertainment and Gift Expenses." For a free copy, send a post card to your District Director.

Q — Is it too late to take a credit for retirement income? I didn't know until recently that I was entitled to it.

A — You may claim a refund for retirement income credit by filing a Form 1040X within three years from the date the return was due or two years from date the tax was paid, whichever is later. You will also have to fill out the information required to support this claim that should have been entered on the original return.

The forms and instructions you will need are available at your local IRS office.

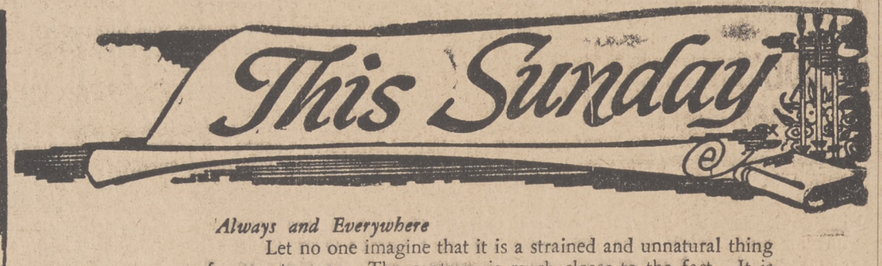
LEMON GROVE (WEST OF MASS. AVE.)



Always and Everywhere

Let no one imagine that it is a strained and unnatural thing for one to pray. The contrary is much closer to the fact. It is far more unnatural for one not to pray. Prayer is one of the most natural of human instincts. Prayer is man's response to the divine will.

Student Discounts For SD Symphony

Outstanding discounts, including half-price on season tickets, are available to all students for the 1969-70 winter season of the San Diego Symphony Orchestra which opens October 16 and 17.

The same discount applies to interns and resident doctors in San Diego County hospitals and to all enlisted personnel in the armed forces.

San Diego Symphony Manager William J. Phillips said the student program is designed primarily for high school students and for those enrolled in area colleges and universities.

Eighth grade students and younger may receive the same discount although most young people that age who love music attend the Symphony's Children's Converts through out the school year, Phillips said.

He said the student, intern and military personnel programs are being promoted more this year in keeping with the San Diego Symphony's new slogan, "Symphony, For Young and Old Alike."

For the 12 pairs of winter concerts scheduled from October through May, Symphony Music Director and Conductor Zoltan Rozsnyai has programmed a variety of contemporary music as well as the more traditional symphonic repertoire for all ages.

The discount rates for students, interns and servicemen include half-price season tickets in all sections of the Civic Theatre. A 30% discount is available on single tickets in all price categories.

The season ticket discount rate is available in all four series offered during the 1969-70 season — 12 Thursday night concerts, 12 Friday night concerts and two series of alternate Friday nights each with six concerts.

Moon Opera Features Far-Out Light Show

With the cooperation of NASA in Houston, the San Diego Opera's October 9 and 11 production of THE MOON will feature a view of the world far beyond anything envisioned by composer Carl Orff, who, when he wrote the opera thirty years ago, called it a "little world-theater."

According to Lighting Designer Bruce Kelley, the 70mm color transparency of the earth was taken from the orbiting Apollo 12 space-ship.

The transparency will be projected onto an eight-foot "wheel of the worlds" which will turn to mark the passage of time as the four fellows who steal the moon from a neighbouring village grow old and die, taking their respective quarters of the moon with them to the grave.

During this passage of time, with the aid of supplementary lighting effects rented from a New York theatrical lighting company, clouds will drift across the sky and the "constellations will rise and fall" while the orchestra plays Orff's "fantastic night" music.

Kelley and The San Diego Opera's resident Stage Director, William Adams, also have plans for a new and original treatment of a scene in which Julian Patrick, as Peter, hurls a comet from the sky in an attempt to quieten the dead who have been awakened by the light of the moon.

Tickets are available at the company's Balboa Park office.

State Buys Beachfront Property

A major step toward acquisition of over 100 acres of hard-to-get Southern California beachfront has been announced by the California Department of Parks and Recreation.

Department Director William Penn Mott Jr. said that after several months of negotiations, tentative agreement had been reached on $1.5 million as the price for the land, a 116.5-acre addition to the new Point Mugu State Recreation Area in Los Angeles County.

"This is a clear demonstration of the high priority we have given to acquisition of all possible Southern California beachfront property for public recreational use," Mott noted. "It also illustrates the increasing costliness of such acquisitions, and the need to move as rapidly as possible to acquire those still available."

Rock Returns, Janis Slated

Rock freaks can say that "things are gettin' better all the time."

After a bleak summer, the pace is starting to pick up.

Next weekend:

Janis Joplin and her band will play Saturday night at the San Diego Sports Arena. Guests will include the James Cotton Blues Band, fresh from appearances at the Fillmore West, where they upstaged such acts as Steve Miller and Keef Hartley.

Later:

A rock festival, sponsored by the Equinox Ltd., and a trade fair are planned at Balboa Stadium, Sunday, Oct. 12.

Among the entertainers will be Country Joe and the Fish, Chicago, Poco, Merryweather and the local Framework. Music begins at noon.

SHERIFF'S MAN IN LEMON GROVE — Sgt. George Dodson, first, permanent "officer in charge of the Lemon Grove-Spring Valley area" answers questions posed by Lemon Grove teenager Jim Horne. Sgt. Dodson will be the permanent officer at the Lemon Grove Sheriff's office. Previously, citizens had to catch-as-catch-can.

First Permanent 'Sheriff' Assigned in L.G.-S.V.

San Diego County Sheriff's Sgt. George Dodson, 37, a veteran of nearly 10 years in the Sheriff's Department, has been assigned as officer in charge of the Lemon Grove Sheriff's office.

It is the first time a permanent management assignment has been made here. Previously, citizens would report to whomever happened to be in the office.

Sgt. Dodson, serving under Capt. Quentin Cash, officer in charge of the East County Sheriff's operations, will have functional supervision over a squad of patrol officers and direct control of all detectives in the area.

Dodson said that an increase in service requirements in the Lemon Grove-Spring Valley area dictated the need for a permanent officer to represent the sheriff here. "Those having problems which bring them in contact with the Sheriff's Department should have an identifiable officer with whom to have contact," Dodson said.

Capt. Cash said the creation of such a post would give the Sheriff's Department an opportunity to maintain a standard of service commensurate with the needs of the growing communities.

"My function is to be in the community as a constant representative of the Department to assure that the level of service meets the needs," Dodson said.

Sgt. Dodson started in the Jail Division of the Sheriff's Department and was transferred to the General Services detail. He served on patrol and civil details in the East County substation.

He was then transferred to homicide detective's detail in the North County as an investigator.

In 1967 he was promoted to sergeant in the East County Patrol. Prior to his Lemon Grove assignment he was in the East County detective's detail.

The Lemon Grove Sheriff's Office is at 7859 Broadway.

DONUT MAN — Frank H. Connor, the country's only registered lobbyist for donuts and donut historian, dropped by this newspaper's offices recently to plug October as National Donut Month.

Connor, who often wears a mink donut hanging around his neck, participated in a food show at Lemon Grove Junior High School last month. He handed out — hold on — donuts.

Called the Duke of Donuts, Dunce of Donuts, Donut Director and the Donut Domo, he travels around to county fairs judging donuts.

His conversation, littered with facts about the Phoenicians inventing fried cakes and the hole in the donut being innovated in whaling days in Massachusetts, makes it clear there are no "holes" in his education.

Hardison's Telespanish

By JAMES HARDISON

In the entrance to some downtown stores I have seen a sign with "Pase usted." Other stores have a sign with "Pase por favor." Would you please explain what those expressions mean in English.

"Pase usted" if viewed from a literal word-for-word translation would mean "Pass you" and fails to relay the true meaning which is given in the idiomatic translation "Come in."

"Pase por favor" is a more courteous way to say "Come in" as it contains "por favor" which literally means "for favor" or "please;" thus "Please come in."

Another sign seen on the inside of some stores is "Sientese." This is a command meaning "Sit down." It is frequently used with "por favor" to construct the phrase "Sientese por favor." which means "Please be seated."

If you wished to ask the question "Can I be seated?" in Spanish, you will find it easily constructed "Puedo sentarme?" In this case the verb "puedo" (I can) has been introduced with the infinitive "sentar" (to be seated). The pronoun "me" (myself) has been added to "sentar."

Some of the above words and expressions are found in the practice phrases listed below. You may wish to learn to say them with the aid of the recorded voice which repeats them automatically for you when you dial 276-2762. Just listen and repeat.

SOCIAL SECURITY

What Happened To Six Months' Pay?

Q. When I filed for social security disability benefits I was told that there was a 6-month waiting period. My checks have started now, but I have never received my back pay for the first six months I was disabled. Why not?

A. Because the law provided for a 6-month waiting period, payments to a disabled worker cannot begin until the 7th full month of his disability.

Q. My husband has been in the hospital since July 25th. His 90 days of hospital coverage under Medicare will soon be used up. Is it true that Medicare will now help pay for more than 90 days hospital care during a benefit period?

A. Yes. Starting last year, Medicare provides a lifetime reserve of 60 additional days of hospital coverage, which can be drawn upon if needed. His hospital insurance will pay for all but $22 a day of covered expenses during the reserve days. "Lifetime reserve" days are not replaced after they have been used.

BIG STIR: Richard Sims (left) of 1850 Skyline Dr., Lemon Grove, who serves as president of Al Bahr Temple's Culinary Unit, stirs a stack of tickets for Shrine football game co-chairman Ray Shukraft as the pair readies the pasteboards for the Oct. 25 grid tilt between San Diego State College and the University of California at Santa Barbara. Sims said tickets are now available at the Shrine Temple in Mission Valley.

Shrine Charity Football Game To Aid Crippled Children

When Lemon Grove and Spring Valley residents attend the annual Shrine charity football game and pageantry Oct. 25 in San Diego stadium, their admission dollars will go directly toward support of a hospital for crippled children.

In this case, the net proceeds from the tilt between San Diego State College and the University of California at Santa Barbara will be used to offset operating costs at the 60-bed Shriners hospital in Los Angeles.

The institution is one of 22 orthopedic and burn hospitals the fraternal order maintains for less-fortunate youngsters throughout the United States, Canada and Mexico.

Since the first Shriners crippled childrens hospital opened its doors 47 years ago, the 19 orthopedic institutions have applied more than 552,000 casts and another 130,000 braces.

The Oct. 25 grid contest is expected by game co-chairmen Ray Shukraft and Murdock Kidder to generate more than $100,000 which San Diego's Al Bahr Temple will deliver to the Los Angeles unit.

Kidder said the Aztec-UCSB football game will be preceded by brilliant pageantry beginning at 7:15 p.m., with a spectacular fireworks display and massing of the flags scheduled during half-time.

Wealth and Want — Progress and Poverty — Liberal : Progressive

BASIC ECONOMIC EDUCATION — Classes on Wednesdays will continue: 7 to 9 pm Pacific Beach Recreation Center; 7:30 - 9:30, 2537 Washington St., Lemon Grove; 7:45-9:30 at 3627 30th St., San Diego.

New and Former Economic students are encouraged to read and review the 'Problem' as pointed up by the headings —Monstrous Wealth alongside debasing want, — economic progress with worse than frontier or uncivilized living conditions; Liberal Systems of political action with little concept of true economic factors, — Conservatives concerned with rights and vested interests of both political and economic nature but with little concern for true justice.

Liberals are usually identified with increasing moves toward Socialism — more state ownership, planning, control, etc. Conservatives are presumably opposed, but go along with Socialistic moves as popular pressure mounts. Neither have true basic concepts of economic and classical consideration of the facors of production and distribution of wealth. Both accept stop gap measures rather than a clean-cut confrontation of Free enterprise as opposed to Socialism, which is the whole contention of the Georgist philosophy. The first steps toward better understanding is to carefully diagnose local property taxes and their effect on individual initiative, business and industrial incentives and development — under full Socialism the state owns and controls all the factors of production — let us not go farther in that direction. It takes study to understand the problems and the remedy. Join us in this basic effort now!

The Henry George School of Social Science enjoys support from both Liberal and Conservative, all forms of religous belief, — Georgists diagnose the 'Problem' based on classical economics. Early lessons bring out personal prejudcies, beliefs, and concepts showing specific areas of doubt or differences of opinion.

Economic terms are sharply defined with insistence that all agree to follow specific definitions thruout the discussions. Factors of production, carefully defined, are discussed along with careful analysis of the distribution of the wealtn produced. This is an area totally evolving PEOPLE — OPPORTUNITY — ABILITY — and the cooperative efforts necessary for results — all human factors, including personal ownership of factors of productions, as distinct from government ownership or control.

Discussion Leader.

Next powder puff race is scheduled Saturday.

FRUSTRATE DEVILS — Mount Miguel's Mark Swanstrom covers a fumble in the fourth-quarter last week to put an end to a Sweetwater drive. Sweetwater, it turned out, didn't need the points, and coasted to a 30-0 win. Milton Johnson (47) and Don Jackson (70) rush to put the brakes on the SU-Hi ball-carrier.

Miguel Mistakes Costly, 30-0

Mount Miguel High had a showdown with one of the best teams in the county last week and was gunned down, 30-0, as host Sweetwater High had all the ammo necessary for the win.

The hosts banked on a sophomore quarterback, Steve Riiff, and the youngster came through by tossing three TD passes.

Riiff found Joe Valdivia for a 14-yard score, and hit John Wirtz with a pair of six-point passes, for eight and six yards.

Jesse Davis, one of the Sweeties' fleet backs, dashed 10 yards for the fourth TD.

Riiff and Mike Ruiz ran for two-pointers, while Riiff passed to Wirtz for another.

The Matadors had their problems, gaining only 51 yards on offense — 27 by passing and 24 by rushing. Miguel gained only two first downs.

Billy Joe Winchester gained three yards to carry for the Matadors, but the quarterbacks were unable to muster an air attack, completing only two of nine passes.

The Matadors were plagued by typical first game mistakes, such as penalties and fumbles that ruined many gains and potential gains.

Sweetwater on the other hand, was playing their second game of the season, and performed with a flair.

Mount Miguel next meets Granite Hills, a one-point loser to Castle Park last week. The Eagles nearly pulled out the contest in the closing minutes, scoring a touchdown to bring them within 27-26, missing a two-point conversion pass and later misfiring on a field goal as time ran out.

AROUND THE CORNER— Matador Chris Wilhite packs the ball for yardage against Sweetwater Friday night. Chris and his Mount Miguel teammates will be looking for first win against Granite Hills this weekend.

MV Scares Cavers Final Rally Fails, 7-0

The Monte Vista Monarchs came about as close as they could to upsetting the San Diego Cavemen last Friday in a thriller which saw San Diego slip by the Monarchs, 7-0.

San Diego, ranked fourth in the County, scored quickly on a 42 yard screen pass from Mike Haynes to Robert Jones and with four minutes gone, the Cavemen led, 7-0.

The Monarchs, however, bounced back to stymie the Cavemen attack as neither squad mounted an attack for the rest of the game until late in the fourth quarter.

The Monarchs took over with 2:27 left in the game and with Vince Campoli carrying most of the attack, drove deep into Cavemen territory. Then with eight seconds left, Campoli carried to the Cavemen one yard line but ran out of time.

The contest was marked with several penalties and turnovers as over 125 yards were assessed against both clubs with four interceptions thrown and four fumbles lost in the battle.

Jim Patterson, Vince Campoli, Mitch Muhleman and Jess Bower led the Monarchs in the non-league contest.

The Monarchs will take on the Helix Highlanders this Friday at Monte Vista in their league opener.

Carl Adams Out To Protect Lead

With just five weeks of racing left in the season, Carl Adams of Lemon Grove is holding on to a skimpy 230-point lead in super stock point standings at Cajon Speedway.

Adams, who will be out this Saturday night to defend the top spot, has had a bit of trouble lately, but appears to have regained his winning form, after finishing third in last week's thirty-lap main event.

Jim Whitt, who finished inches behind Adams last week, is in the second slot, and is bearing down on the leader, while Jim Hitt of Lemon Grove, the third place holder, is another 250 points behind.

In the big races this week, watch out for these three along with Ed Hale, the suicidal driver from Lemon Grove who only last week broke into the top ten after a late start.

Hale, who finished second in the main, will be out for revenge over John Dineen, last week's winner.

Dineen, of El Cajon, led from start to finish and came across the finish line sideways to win the thirty-lap super stock main event over Cajon Speedway's 3/8 mile paved oval.

Relaxing over the first twenty five laps, Dineen stayed off a fast-closing Hale on the last lap, as Hale whipped around the last turn and spun into the winner.

Adams, a few inches behind the big finish, landed the third position, while White and Sonny Tomlinson rounded out the top five in the event.

Golden Bowl Standings

With the winter season getting well under way at Golden Bowl lanes in Spring Valley, some outstanding "rolling" has come to the fore.

So. Bay Trade School, first; Team No. 3, 2nd; and Jimmy's Meat Center, tied with The Three B's, for 3rd.

The League standings were Potter Rappold, Cook's Welding and Never A Doubt, tied for first; Team No. 3, Morgan Davis and Son, Team No. 13 and Team No. 3, tied for 2nd; Rosita's, Team No. 1, and Team No. 4, tied for 3rd.

In the Casa de Oro Trio league Jerry Lyhene chalked up 759 for an individual series; Neal Paradise 238 for an individual game, and the Sooners, for 2134 in their team series. Their league standings were:

Team No. 1, Team No. 2, Sooners and Team No. 6, tied for first; Exclusive Cleaners, 2nd; Team No. 1 and Team No. 4, tied for 3rd.

In the Gold Dusters league Marie Mathe rolled 591 for an individual series; Lorraine Thompson, 224 for an individual game; Genn's Bowling Apparel, 2150 for the Team Series; and Team No. 10 a 738 for the Team Game. The league standings were:

Carlton Oaks Country Club and Welton Const., tied for first; Genney's Bowling Apparel, Team No. 10, Joe Edinger's House of Sirloin and Team No. 1, tied for 2nd;

Rockets Make Home Debut

SAN DIEGO — Professional basketball makes its season debut tonight at the San Diego Sports Arena starting at 7 p.m. with the opening of the second annual Rocket Classic.

The doubleheader affair, sponsored by the San Diego Rockets, will have the Phoenix Suns meeting the Los Angeles Lakers in the seven o'clock opener followed by a bout between the Rockets and San Francisco Warriors.

Chargers Tackle Streaking Bengals

The Chargers (1-2) engage the Cincinnati Bengals, Papa Paul Brown's expansion babies, who thus far in 1969 have turned over the crib, knocked the cereal off the table and run the babysitter out of the house.

Saturday night's game will begin at 8:15 p.m. It is the last night game at home for the Chargers and their final home appearance until Oct. 26. The outstanding Glendora High School band will provide halftime entertainment.

Total Zoning Set For Oct. 17 Public Hearing

SAN DIEGO (CNA) — The County Planning Commission on Friday set Oct. 17 as the date for the public hearing on zoning all of the unzoned portions of the county.

The commission will also consider adoption of the proposed zone, LC, limited control, that is proposed for all unzoned portions, some close to population centers and some remote.

Limited control is perhaps not a fortunate name because the only uses that will be allowed as a matter of right will be all types of farming and one residential structure on a lot no smaller than two and a half acres. The residence can be one or two family.

All other uses will require special use permits, except for home occupations.

The board wants the zoning in effect by the first of the year.

Hussey Retires

(Continued from Page 1)

part in the total effort a pleasure.

"I shall always cherish in my memories the privilege of having worked with you.

Active Statewide

"As you know, I have for many years been active in the Statewide Conference; have attended both the State and National Colleges of Trial Judges and many National and Regional meetings of Judges and Lawyers.

"It has long been a source of great satisfaction and pride to find that the California Judiciary is highly regarded on the National scene and that, within the state, our San Diego Judicial District has consistently been cited and generally regarded as a leader in establishing and maintaining improved standards.

"Each of us must at sometime withdraw to the sidelines.

"I trust that when your time arrives you will likewise have cause to be proud of the Team and have the confidence I now have that it will continue to meet the changing needs of the people and will carry on in the best traditions of public service."

It is expected that several persons will make presentations to Judge Hussey at the luncheon.

His retirement will serve the Lemon Grove community well because it is probable that the Judge will become active in local civic affairs again.

Handicapped Help Week Set

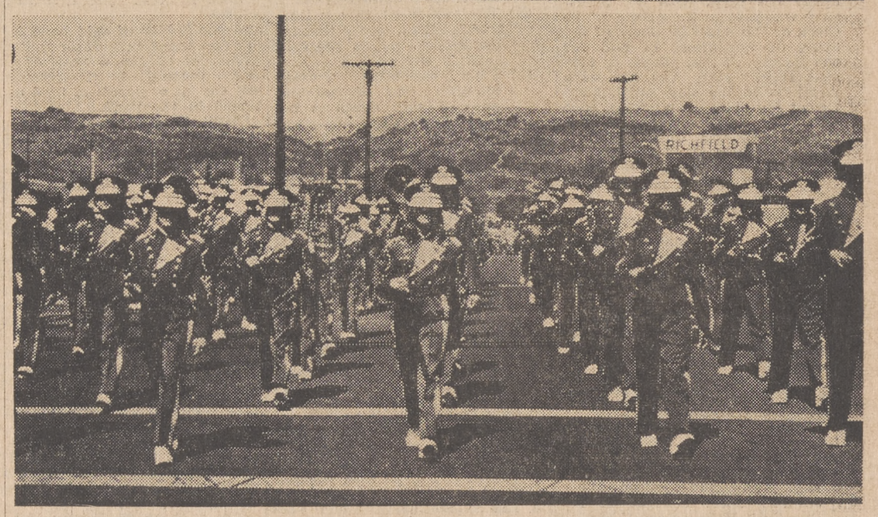
This is National Employ the Handicapped Week.

The reminder was made today by Eugene Morrill, executive director of Goodwill Industries in San Diego.

Many employers are aiding in the handicapped program in San Diego, Morrill said. Every citizen who helps such organizations as Goodwill is aiding in providing a full program of vocational training and rehabilitation for the handicapped, he added.

Handicapped Week is October 5-11 nationwide.

Vesterans enrolling in college for the first time — or who have changed their program or school — must obtain a Certificate of Eligibility from the VA and send it to the college registrar, who will complete it and send it to the VA.



DAY FOR KIDS — Annual Kiwanis Kids Day parade in Lemon Grove was a success, largely because of efforts of local youngsters who turned out in multitudes to participate (above) in the costumed pass-o-rama.
Area bands, including one from Lemon Grove Junior High (above) also marched and provided music.

Post Office Seeks Help

Looking for a post-office job close to home?

Now's your chance.

Applications are being accepted until further notice, and can be obtained from any post office.

The written tests, requiring 2½ hours along with the completion of required forms, will be held in San Diego.

Applicants will be notified of date, time, place of examination and will be sent sample questions.

Applicants must be at least 18 years of age. Starting salary for substitute employes is $3.06 per hour.

Diabetes Meeting Set

'Oral Agents and Methods of Diabetic Control" will be the topic of discussion at the next regular meeting of the San Diego County Chapter of the Diabetes Association of Southern California when it meets at 7:30 p.m., Thursday, Veterans Memorial Bldg., Balboa Park, San Diego.

New Speed Limit In Casa de Oro

The California Division of Highways has announced a speed zone revision along Route 94 (Campo rd.) in the Spring Valley-Casa de Oro area.

The 40 mph speed zone between Kenwood dr. and Bonita st. will be reduced to 35 mph. The existing speed zone from Bonita st. to Granada ave. will remain at 35 mph.

District Engineer Jacob Dekema said the revision is the result of an engineering study to determine limits that are reasonable, safe, and will best facilitate the orderly movement of traffic.

The speed zone became effective last week.

ation, or a syndicate of doctors, and take the hospital off the tax rolls.

Funds from the sale could be used for a huge District recreational facility — or refunded to distressed taxpayers who footed the bills during the building years.

Under pressure of added efficiency that would accrue with private ownership, hospital costs would decrease.

A hospital management consultant said — and it seemed to sum it up pretty well — "Whole departments (at Grossmont) could be eliminated but it is traditional to house them. Many positions could be dropped without reducing patient care. But overstaffing of public hospitals is traditional."

Such an idea should be respected coming from one associated with a hospital efficiency.

LOS ANGELES — No better diet lunch exists than half a California avocado sprinkled with lemon or lime juice and served with a scoop of cottage cheese.

It totals less than 200 calories and the stick-to-the-ribs qualities of the avocado makes it an outstanding hunger-abater.

Guthrie Concert On Tap

SAN DIEGO — Folk singing guitarist Arlo Guthrie, who currently is starring in the motion picture "Alice's Restaurant," makes his San Diego concert debut Oct. 26 at an 8 p.m. concert in the Civic Theater.

The young performer is the son of Depression-era balladeer Woody Guthrie, who is best remembered for such classics as "This Land Is My Land," "So Long, It's Been Good to Know You" and "Pastures of Plenty."

The younger Guthrie, who began his show business career three years ago singing in Greenwich Village coffee houses in New York, will see the release this week of his third LP album, "Running Down the Road."
